Slices

Slices

A slice is a pointer to a block of memory

```
let numbers = [1, 2, 3, 4, 5];
let slice = &numbers[1..4];
```

Slices

A slice is a pointer to a block of memory

```
let numbers = [1, 2, 3, 4, 5];
let slice = &numbers[1..4];
```

- Size is determined at runtime

Slices

A slice is a pointer to a block of memory

```
let numbers = [1, 2, 3, 4, 5];
let slice = &numbers[1..4];
```

- Size is determined at runtime
- Can be used on arrays, vectors and strings

Slices

A slice is a pointer to a block of memory

```
let numbers = [1, 2, 3, 4, 5];
let slice = &numbers[1..4];
```

- Size is determined at runtime
- Can be used on arrays, vectors and strings
- Indexed

Slices

A slice is a pointer to a block of memory

```
let numbers = [1, 2, 3, 4, 5];
let slice = &numbers[1..4];
```

- Size is determined at runtime
- Can be used on arrays, vectors and strings
- Indexed

Mutable slices allow us to change values
